

Swivel castor:

367a 31CA-32 ZLD

## Technical data

Diameter		80 mm
Tread width		32 mm
Height		110 mm
Offset		43,5 mm
Bolt hole diameter		12,2 mm
Load capacity		100 kg
Weight		545 g

## Technical description

sheet steel metal housing
zinc passivated
swivel bearing with double ball race
protected from dust and water spray with plastic seal
also available with plate PD (77x67 mm)
also available with bolt hole LC (10,2 mm)
on inquiry also available with fixing pin Z622 (28x45 mm)

## Wheel

TPE tread electr.-conductive (Shore A 87)
polypropylene wheel body
thread guard
ball bearing
non-oiling
on request further variants available
