# Swivel castor:

# 367a 51C ZLD

## Technical data

| | | |
|---|---|---|
| Diameter | | 125 mm |
| Tread width | | 32 mm |
| Height | | 155,5 mm |
| Offset | | 43,5 mm |
| Bolt hole diameter | | 12,2 mm |
| Load capacity | | 100 kg |
| Weight | | 701 g |

## Technical description

- sheet steel metal housing
- zinc passivated
- swivel bearing with double ball race
- protected from dust and water spray with plastic seal
- available with plate PD (77x67 mm) and PF (95x70 mm)
- available with bolt hole LC (10,2 mm) and LD (12,2 mm)
- on inquiry also available with fixing pin Z522 (24x45 mm) and Z622 (28x45 mm)

REACH compliant RoHS compliant

## Wheel

- TPE tread (Shore A 87)
- polypropylene wheel body
- thread guard
- ball bearing
- non-oiling
- on request further variants available
